

**#12th Greatest Driver of Pro Stock/Late Model History
Doug “Long Lean Handsome” Greig**

#12 Doug Greig—The past five seasons have seen this driver emerge into the Late Model limelight. For years Doug had many good finishes and lots of oval feature wins before his first Figure 8 triumph on August 13, 2003. A dozen more crossover victories (including the 2005 Sonny Thompson Memorial) led Doug to his amazing coronation in the 2006 Chase for the Cup championship. The veteran car builder keeps the familiar #33 near the front of every feature. Most likely has not been a driver raced more and attended races in the 12 year ownership of Checkered Flag Enterprises LLC.
