

[WWW.SPEEDROME.COM](http://www.speedrome.com) BREAKS SINGLE DAY RECORD FOR HITS

Blood Hound Underground Indianapolis Speedrome™
Indianapolis, Indiana
September 10, 2008

"The World's Home of the Figure 8"® is so very proud of its web site. The day of the 32nd Annual World Figure 8 Championship, September 6th, saw the content overflowing site have 2,145,281 hits! The mind-boggling number finished off a record-breaking weekend when other marks got shattered. www.speedrome.com has so much to offer. Everyone from a casual fan to the most dedicated Speedrome aficionado will find thousands of photos, results, statistics, and many other items to entertain their brain. By the end of 2008, we look to bust the 50 million hit mark for the year.

The Speedrome web site is a living, breathing being that gets updated everyday. On a typical racing night, pictures that are taken in victory lane find their way on to the World Wide Web just minutes later (sometimes before the winning car is back in their pit spot). Each night hundreds of pictures from the day will be on display in an easy to use slideshow and kept in the tracks archives for years to come. And our racing results are kept along the same lines as they are posted not long after they become official.

You can also join the Speedrome e-mail newsletter list. Over 3000 of our drivers, teams, sponsors, and loyal fans around the world have already signed up to receive all the up to the minute information. The e-mail mailing list recipients receive real time race results, points updates, upcoming events, breaking news, track history, and anything Speedrome dropped right into your very own e-mail box. To join, log on to America's number one racing web site www.speedrome.com and look to the top right hand corner of the front page. You will see the familiar red box that you can type in your e-mail address. Then click the Go button to start receiving your news today.

The Indianapolis Speedrome is the home of the \$20,000 to win 33rd Annual World Figure 8 Championship September 10-12, 2009
