

CORVETTE INDY TO PROVIDE CARS FOR SEPTEMBER 10TH PARADE OF CHAMPIONS AT THE 35TH ANNUAL PURE POWER TECHNOLOGIES AND UAW WORLD FIGURE 8[®] CHAMPIONSHIP

The ceremonies before the green flag on race day of the Pure Power Technologies & UAW World Figure 8[®] Championship are some of the most special in all of short track racing. This includes the annual Parade of Champions. Thanks to the great people at Corvette Indy, there will be beautiful convertible Corvette's to usher the starting field around the Bryant Heating & Cooling Indianapolis Speedrome[®]. "Our club is very excited about being part of this awesome event", said Corvette Indy's Pat Hogan.

The Chevrolet Corvette is proudly American built in Bowling Green, Kentucky by members of UAW Local 2164. These high-end American automobiles will carry these honored racers around the famous fifth-mile on a series of parade laps to greet the fans during driver introductions. This gesture gives fans a last chance to let their favorite drivers hear their support and gives the 32 starters the acknowledgement they deserve before the fireworks light up the night sky. Here is the car roster so far:

Mike Lewis	Black C4 Convertible
Pam Kellam	Red 2000 convertible
Jim Kellam	Silver 1975 convertible
Bill Lapham	Dark Grey C5 convertible
Bill Baird	Yellow C6 convertible

To learn more about their club, log on to www.corvetteindy.com

We would like to thank Corvette Indy for their support in this the Greatest Figure 8 Race on the Planet[®].
